ASIAN PACIFIC JOURNAL OF PHARMACY AND PHYTOCHEMISTRY (APJPP): A NEW INTERNATIONAL, OPEN-ACCESS, SCIENTIFIC JOURNAL.

Dear Readers,

Asian Pacific Journal of Pharmacy and Phytochemistry-(APJPP) is an international, open access, a scientific journal of various disciplines of pharmacy, Phytochemistry and applied chemical sciences from the peoples of life sciences professionals from Asian countries.

Our journal APJPP is committed to providing a common global platform to utilize research knowledge among the researchers of various disciplines under the theme of **“knowledge can be shared”**.

Our journal is aimed to focus on basic and applied research to provide some interactive platform between academic and research professionals for their further fruitful enhanced and collaborative research activities.

This peer-reviewed multidisciplinary international journal publishes research findings in the form of **original research articles, review articles, short communications and case studies** in the interdisciplinary areas of Pharmacognosy, Ethnobotany and Phytochemistry, Natural Product Chemistry, Pharmacology & Toxicology, Applied chemical sciences, Pharmaceutical and Medicinal Chemistry, Pharmaceutical and biomedical analysis, Pharmaceutics & Biopharmaceutics Novel & Targeted Drug Delivery, Pharmaceutical Biotechnology & Microbiology Pharmacy practice & Hospital Pharmacy, with strong emphasis on scientific quality and originality of contents.

Reports on biological activities of crude extract articles reporting the secondary metabolites of plants will also be considered for publication if biological and toxicological assays are included.

“Knowledge is power, wealth & it can be shared”

Prof. Dr.R.Jayaram
